Technical Writing Manager/Lead Writer

Professional Snapshot:

- Driving AI-native documentation strategies that serve both human users and AI agents through structured, metadata-rich, and machine-consumable content architectures.
- Strategic Technical Writing leader with **16 years** of experience, including **6+ years in leadership roles,** driving large-scale transformation of documentation functions across SaaS, AI, CRM, ITSM, and enterprise platforms.
- Extensive experience leading developer documentation initiatives for APIs, SDKs, platforms, and enterprise SaaS products using modern Docs-as-Code practices.
- Proven track record of building and scaling high-performing documentation organizations, redefining operating models, and aligning content strategy with product, engineering, and business outcomes.
- Demonstrated success in integrating documentation into product experiences, including in-product help, contextual guidance, and customer education frameworks that improve product adoption and reduce support dependency.
- Designed and implemented enterprise **Docs-as-Code** platforms from scratch, enabling scalable, release-driven documentation workflows. Deep expertise in DITA, structured authoring, information architecture, and content governance at scale.
- Expert in cross-functional leadership, partnering with Engineering, Product, UX, and GTM teams to create unified and customer-centric content ecosystems.
- Independent Project: ProductHelp AI: Ideated, designed, and developed an end-to-end documentation platform using Cursor AI and modern cloud technologies, featuring a professional content editor, doc-as-code workflow, collaborative review, versioned publishing, content reuse, analytics, and an AI-ready architecture: Producthelp AI.

Work experience:

1. Worked at Freshworks, Bangalore October 2024 to August 2026
   Designation: **Head of Freshworks Platform Documentation** (Technical Writing Manager)
   Responsibilities:
   - Head the platform documentation team at Freshworks, leading efforts to create comprehensive product documentation that empower product users and developers.
   - Define and implement documentation strategies that are aligned with product releases, customer success, and company objectives.
   - Oversee the recruitment, onboarding, and professional development of technical writers to build a high-performing and collaborative team.
   - Partner with engineering, product management, and support teams to deliver accurate, user-centric, and impactful platform documentation.
   - Define style guide and documentation standards.

- Driving the development of AI-ready, metadata-rich documentation to support LLM-powered virtual assistants and contextual in-product help.

2. Worked at Aviso AI (Remote) November 2021 to October 2024
   Designation: **Head of Product Documentation** (Technical Writing Manager)
   Responsibilities:
   - Setting up a product help system from scratch.
   - Defining documentation strategy, styles, standards, and roadmap.
   - Hiring technical writers and grooming them.
   - Regularly meeting the product managers and customer-facing teams to understand the areas of improvement.
   - Helping the UI team by reviewing new UI, UI messages, and error messages.
   - Leveraged AI to enrich documentation for seamless integration with LLMs and chatbots.
